Something is.....

Different.....!

by Leah

LaChapelle

Scene From the 2nd movie in the trilogy *The Matrix Reloaded*,
"Neo stopping the sentinels":

(-Neo, Trinity, Morpheus, and Link are running for their lives from the attacking sentinels, totally outmatched in size and force.-)

Neo: "We won't make it."

Trinity: "We have to try....."

(- Neo stops running and faces the pursuing lethal sentinels - Trinity is quizzical -)

Neo: "Something is *different*. I can feel them."

(- Neo stands in his "different" power and directs his energy toward the sentinels, which somehow neutralizes their attack.-)

sentinels -

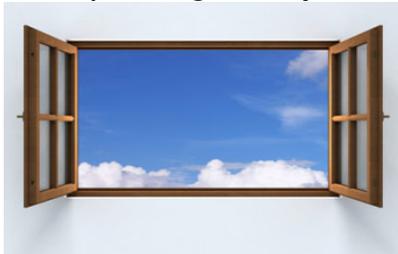

Something.... IS.... different!

It feels good to be finding our pivot place, heading into the big turn towards Dec. 21, 2012 and beyond. Humanity is shifting awake. Daily *so called living* in “fight or flight” must end. Whether we like it (*or not....?*), the design for Humanity IS to move into sustained worldwide peace! That requires an upgrade.

Are you noticing pivotal moments where you experience your vibrational reality coming from within, as in coming out of situational fear, and standing in a new vibration? If so, your presence is received with gladness! If not, that’s OK!!!! There’s no one right way or schedule. Consider that this article is your personal invitation you have drawn to yourself, to grow in power on behalf of our planet.

The following steps are for engaging those pivotal upgrade moments:

- 1. Declare that ***something is different!***
Just speaking this opens a new window!

After all,
we’ve been doing a lot of work to get here:

Meditating, serving, meeting and gathering, belief shifting, corresponding, opening fields of possibility, investing, taking risks, researching and studying, attending conferences and seminars out the wazoo, receiving and ministering healing, making pilgrimages, etc. So come on! When the car breaks down or your roommate is on your nerves, Declare: Something’s different! Or when something good comes your way, tap in to love you have for yourself at an even deeper level.

- 2. Move about with [far] less fear. We’ve given way too much room to

fear as the primary ingredient to our vibrational makeup. We now have access to more tools and less fear. This is good news! Be grateful for the fear, as it has served as a backdrop for learning the ways of love, which incidentally, is why we're here.

3. Relax. Relax your skeleton. The Universe is full of what we need. Replace old complaints with "I always have what I need." Do whatever you do because you choose to. Breathe.

4. Choose your languaging as your preferred vibrational operating system. Drop the disempowering slave talk. ("I have to", "I need to", "I've got to", etc.) *Really.....?* "I choose", "I Am", "I can" is very empowering liberated talk.

5. Look to see what's there that you can create as new. Say "yes" to new and different things other than to what you have in the past. And say "no" to some new and different things than before, too. Our neuro-pathways make ruts for our thinking. Take responsibility for getting out of your old ruts and for maintaining your creativity and vitality.

6. Interface differently with water. Consider that it is sacred and we don't really know what water actually is.

"We are 95 % water when we are born. We are 75% water when we are an adult. Therefore, we are mostly water. Our earth is the same. 70% of its surface is covered by water.

That's why our planet is called the "Water Planet"...

... Isn't earth very much like us?" Love Bottles

7. When negative news of large scale disaster or that of personal tragedy comes into your eargate/eyegate, allow the news to move through you as a "vibration cloud" that lets you know about it, without it gripping you or taking up residence, to overwhelm or oppress you. Do this on a personal basis as well, when having a negative thought. Let discordant things pass through you.

8. Do it NOW, whatever it is. Whatever you've been putting off to heal, design, share, transform, energize, express, experience, do it now. "This Now" is how you are creating (y)our future. Let's make it a positive one.

9. Be willing to let..... go. Let go gradually,,,,, of your extreme identification with form. Find a new interest level, for the sake of the whole, for letting go of whatever has been imprisoning you. These life challenges that seem to keep coming at us aren't happening TO us, they're happening FOR us. We're all learning this together!

10. Stop fighting, fussing and fixing, and start finessing. Choose to come out of the drama. Step into your intuitive wisdom. Become centered in your true sovereign self. Let refreshing humility and alignment flow through you, so that you begin to magnetize the goodness that life has to offer.

11. Become very powerful and adroit in bringing YOUR energy TO any situation.

**Be in "Your Standing"
through being ONE.**

Humanity is shifting - Now!
Check to see if you feel exactly the same on the inside, as you did even 3 months ago, or if anything at all is different. Whether you're the same or different, get ready for an energetic upgrade. Many of us have begun to catch ourselves much more efficiently, when having thoughts and actions that are counter-productive or disempowering for us individually, and for Earth as a whole. (We are right on schedule!!) As a result, a field of possibility is opening up for us for experimenting with new energy observations and activations. I suggest that we not start with "life or death situations", but start with basic scenarios and work up to those if/as necessary.....!

In the 3rd movie *The Matrix Revolutions*, the Oracle reveals to Neo that when he stopped the sentinels, **what he felt was the Source.**

ALLOW SOMETHING TO FEEL

DIFFERENT.

Feel the Source.....

.....flow through you to transform

yourself, and our world!
